e-CODEX

e-Justice Communication via Online Data Exchange

Düsseldorf, 26th January 2011

The goal of the e-CODEX project

The goal of the e-CODEX project is to:

> **"Improve the cross-border access of citizens and businesses to legal means in Europe as well as to improve the interoperability between legal authorities within the EU."**

In a nutshell:

➤ **Easy and secure access** to **legal information** and **procedures** in other EU Member States for businesses and citizens

➤ Greater **effectiveness** and **improved efficiency** of cross-border judicial processes through **common standards** and **greater interoperability** of information systems

The e-CODEX project aims at…

- ➢ **Contributing** to the implementation of the EU legal framework and the e-Justice action plan, in due respect of subsidiarity

- ➢ **Achieving** interoperability between existing national judicial systems

- ➢ **Enabling** all Member States to work together towards a more effective judicial system in Europe

- ➢ **Improving** the effectiveness and efficiency of the processing of the increasing number of cross border proceedings, especially in civil, criminal and commercial matters

- ➢ **Contributing** to a safer environment inside the EU for citizens

- ➢ **Modernizing** the judicial systems in Europe

- ➢ **Increasing** collaboration and exchange between judicial systems of the Member States
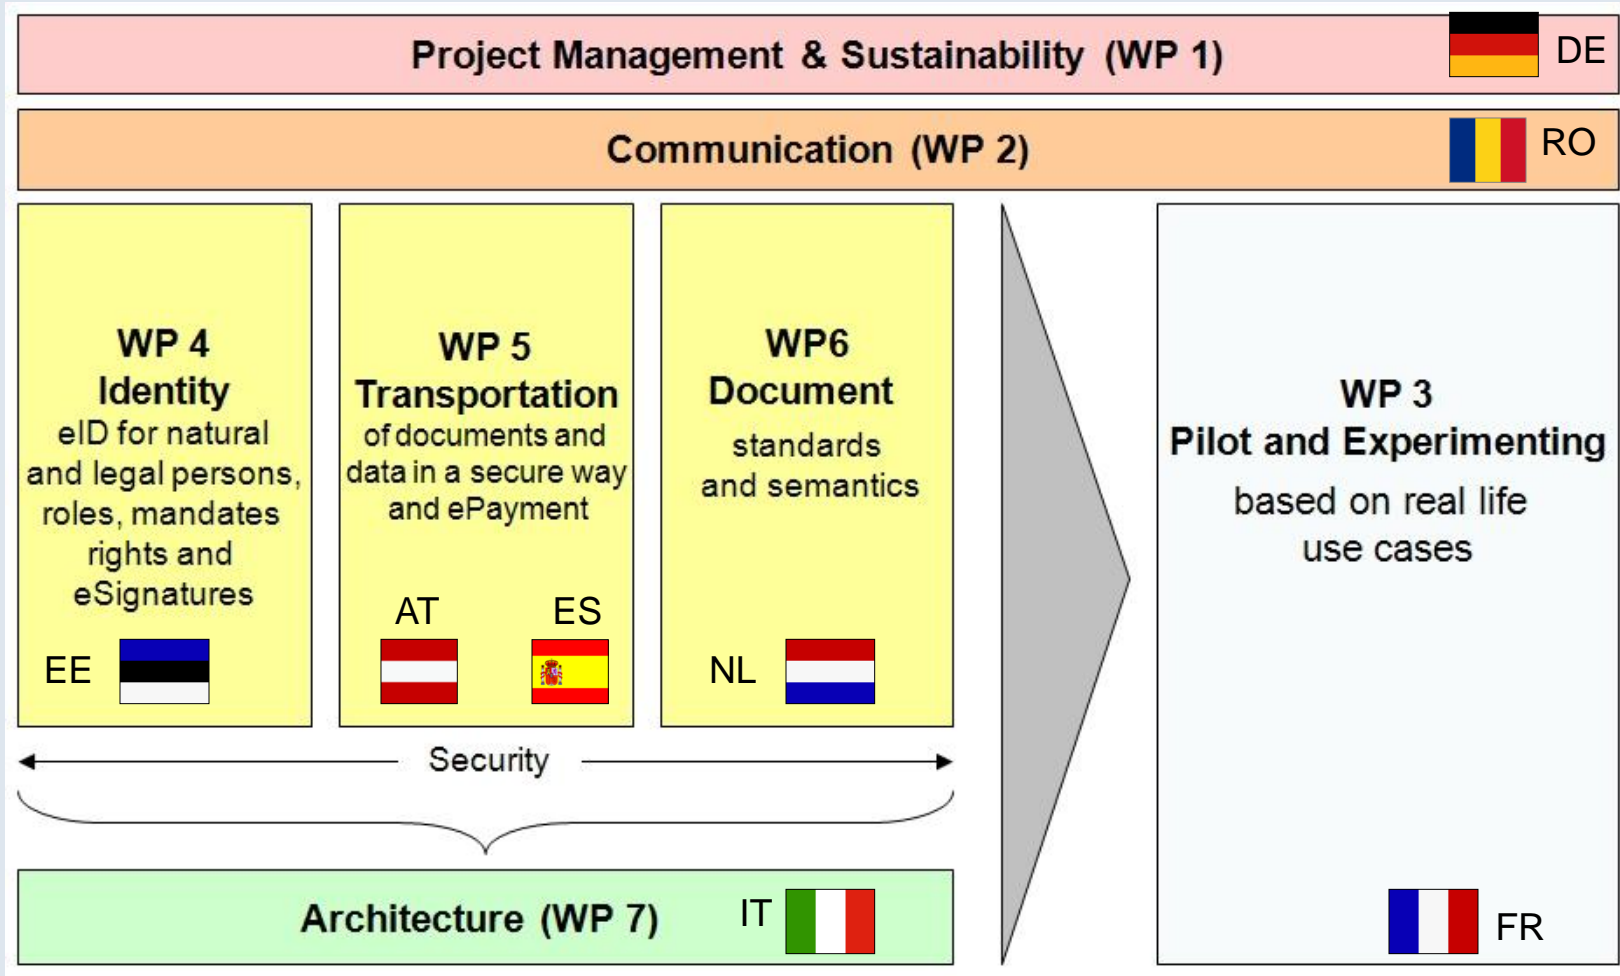

e-CODEX partners

Participants:

Belgium, Estonia, Germany, France, Greece, Italy, Malta, The Netherlands, Austria, Romania, Portugal, Spain, Czech Republic, Turkey, Hungary, CCBE and CNUE
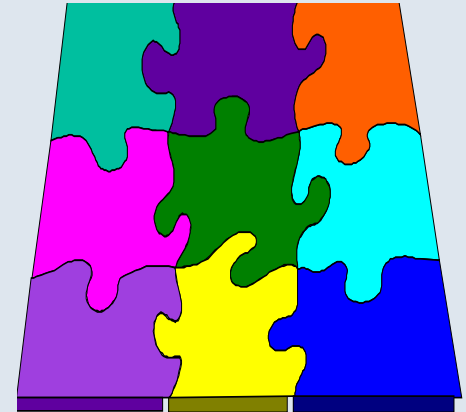

Pending contractual finalisation

The project is structured into 7 work packages

WP 3 Pilot

The objective of the pilot Work Package is to demonstrate the value of the solutions developed by testing them in a real life environment.

- The real life cases will be called **pilots**. These will offer **true use cases** to be tested during 12 months

- Among others, the following areas will be explored:

  - Cross border claim procedures (Civil Justice)

  - Mutual Court Assistance (Civil Justice and Criminal Justice)

  - Interconnection of registers (Civil Justice and Criminal Justice)

Iteration cycles of the project

e-CODEX will build on the work done by the other LSP's

eHealth

eProcurement

eIdentity

Business start ups

Data protection findings

Signature verification

eID Natural Persons

Document container standards

eID Legal Persons

**??? Anything else**

Virtual company dossier

Content syndication

eSafe handling

Transportation

Taking stock / questionnaires

Dec'10	Jan'11	Feb'11	Mar'11	Apr'11	May'11	Jun'11

WP 4-6

Startup ★ **Kickoff**   WP1 sends out one consolidated questionnaire

Prepare Questionnaire ★ **Fill in Questionnaire**   **Analysis & Writing Deliverable**   **QA / MB / Update**   **D4.1/D5.1/D6.1**

(Inventory of national solutions)

30/6/11

All partner MS respond

Assessment of EU projects and other LSP's   7/6/11 - 29/6/11

Desk research, interviews

Determine analysis & assessment criteria

WP7

Prepare Questionnaire ★   **Prepare D7.1: Governance and guidelines definition**   **QA / MB / Update**   **D7.1**

30/6/11

Prepare D7.2: Requirements Finalisation (M9)

WP3

D3.1: Selection of pilots (M3)   **QA / MB**   **D3.1**   1/4/11

Prepare Questionnaire ★   Presentation Kick Off Final.pptx   **Prepare D3.2 Describe test scenarios (M9)**

Pilot-specific information

We are looking forward to

A three year journey to build interoperability for e-Justice!

…. and a lot to learn from one another!
