

IMOLA: analysis and preliminary conclusions

ELRD Pivot Terms

- Basic structure to normalize land Registry Information.
- Provide the metadata detailing the juridical effects of different pieces of LR information.
- As a semantic ontology allows a formal and flexible representation of pivot terms.
- Relationships between pivot terms and national concepts
- Land Registry specific contain domain within the scope of European Interoperability framework.
- Dynamic and abstract vision to keep them permanently updated

ELRD National Concepts

- **Twelve excel sheets have been delivered.**
- **High level of reusability at national level**
- **Accuracy achieved in the relationships between pivot and national glossaries.**
- **Multilingual approach.**
- **Main incoherence found: duplication of terms.**
- **Explanatory material & IMOLA platform have proved to be an efficient tool.**

ELRD National Concepts New Blocks

- **New Guideline # 6**
- **Reuse ISA Core vocabulary.**
- **Reuse other information sources.**
- **Front page: juridical effects of information & metadata**

Attributes
Formants
Section A
LR Unit

LR Unit - Property

- *LR Unit - Property – Apartment*
- *LR Unit- Property - Special Property*

LR Unit - Cadastral Parcel

LR Unit - Property rights

Attributes
Formants
Section B
Proprietorship

- ***Class of title***
- ***Title***
 - ***Title – Proprietor***
- ***Restrictions***
 - ***Personal Restrictions***
 - ***Restrictions derived of title***

Attributes
Formants
Section C
Encumbrances

- **Mortgages**
- **Judicial restrictions**
- **Property rights**
- **Other encumbrances**

Attributes Formants Feedback

- Acknowledgement of great job deployed by CPs.
- CPs high workload could make advisable to compose wider teams at national level.
- Formants are a very efficient method to define attributes: Land Registry Juridical Ecosystem.
- Relevance of ELRN training seminars & collaborative environments .
- Incremental methodology: formants templates only have been released regarding the containers.
- Coming up forms will go down to spread the formants to all terms of ontology.

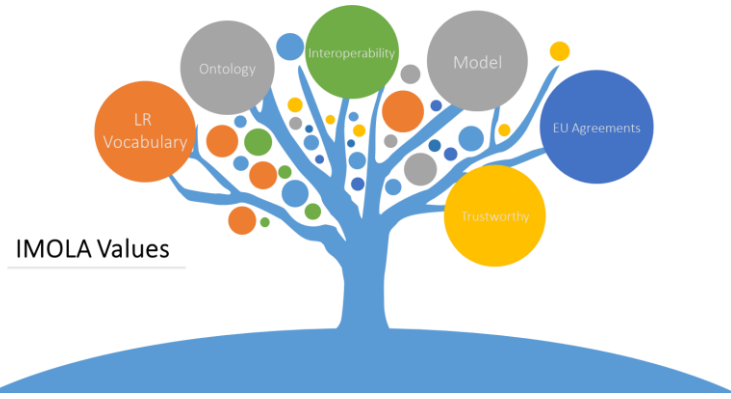

Attributes Formants Questions

- **Section A: LR Unit-Property-Special Property & LR Unit-Property Rights: scope and differences.**
- **Section A: how do the formants apply in Deed Systems?. (new guideline # 7)**
- **Section B: The meaning of title. (new formant)**
- **Section C: Other encumbrances: special attachment of the LR Unit to an economic liability.**
- **Section C: Property Rights: ownerships powers to recover or regain LR Unit**
- **The important of usage and explanatory notes**

The next objectives

- **Complete national concept definitions.**
- **Spreading attributes to cover all the ELRD ontology.**
- **Adding new relationships.**
- **Start up quality tests.**
- **LRI integration: IMOLA interface, (WSs).**
- **Dissemination: collective electronic book.**

Key Issues

Dublin training seminar: Associative relationships & Baselines

Many Thanks

Team up Together
