What is this.. ONTOLOGY?

Bringing people

WHAT WE LEARNED

- Realization of the amount of work necessary
 - Straightforward *prima facie*
 - Know-how required
- No one place with all the necessary information
- Even simple tasks require work to be completed in good quality

WHAT WE LEARNED

- We have a very general terms
 - Civil Law, Land Register Law from 1930s
- One encumbrance for all
- We have different laws
 - Land Register Law, Civil Law, Construction Law, Protection Zone Law, other regulations etc.

WHAT WE LEARNED

- Involvement of different experts
 - Court administration specialists, Ministry of Justice officers, Land registry judges
- European LR systems so similar and so different at the same time

WHAT TO CONSIDER

- Best way to facilitate cooperation
- Too much time between checkpoints
- More use of Knowledge Manager
 - Further data optimizations
- Maybe a web version is more flexible
- Map the results
