

Public Consultation on Digitalization of Cross-Border Judicial Cooperation

17 June 2021

REMINDER!

The **European Commission** wants to know:

1. If the utilization of electronic tools in trans-border procedures could improve cross-border judicial cooperation.
2. If individuals and business could take advantage of electronic communications with courts.

The consultation also refers to other competent authorities who communicate with courts

Thus, **Land Registries** could be included

OUR INSTITUTIONAL ANSWER: GENERAL PRINCIPLES

- I. **LR provides information**, which in some countries is open and in others restricted
 - Identification
 - Attributes
 - Standard display = ELRD document
 - Understandable = IMOLA

II. Reception and registration of documents

LR are intended to receive judicial documents as provided in different EU instruments

Interconnection should also imply this

- Security
- Technological neutrality
- National Law
- Desirable European Platform

III. Electronic documents for electronic circulation

It should comply with technological conditions:

- ✓ Readable
- ✓ Able to be processed

and substantive requirements of authenticity

IV. Certification of foreign documents according to national law

- Qualified or unqualified documents
- Integrity and proper identification
- Maintaining requirements for reliability

V. Electronic Identification

Parties, but also submitter
Regulation 910/2014 (IDAS)

FINAL STATEMENT

ELRA supports the initiative:

- Voluntarily and progressively basis
- Complying with technological neutrality
- Fully respecting national law, both material and formal

THANK YOU!

Fernando de la Puente
ELRA President
