ELRN EUROPEAN LAND REGISTRY NETWORK

Videoconferencing in the EU Digital Justice Agenda

Digitalisation of judicial cooperation and access to justice

EU POLICY CONTEXT

Regulation (EU) 2023/2844

The Regulation forms part of the EU framework for digitalising judicial cooperation and access to justice in cross-border matters.

ELRA is exploring whether videoconferencing could also bring value to land registration procedures, while respecting national legislation and the specific nature of registries.

EU digital justice priorities → ELRA exploratory work

ELRN EUROPEAN LAND REGISTRY NETWORK

ELRA commitments: 2026 → 2027

2026

Preliminary assessment

- Current use in land registration
- National legal provisions
- Potential cross-border applications
- Legal and practical risks

2027

Further analysis & recommendations

- Legal, technical and organisational obstacles
- Exchange of good practices
- Possible safeguards
- Preliminary reflections and recommendations

Supporting EU digital justice priorities through cooperation among European land registries

Results

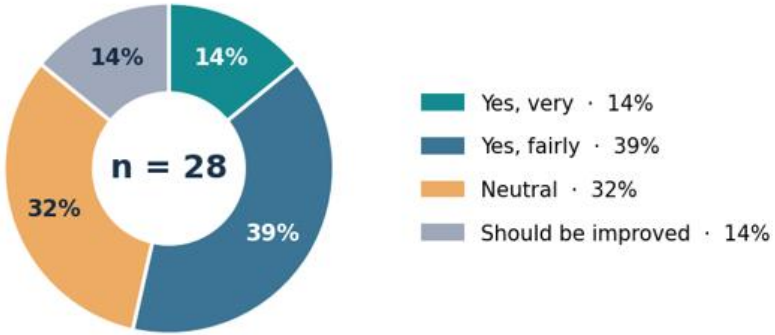

Past Study on the use of Videoconferencing

2nd ELRN Workshop in Trento 2025

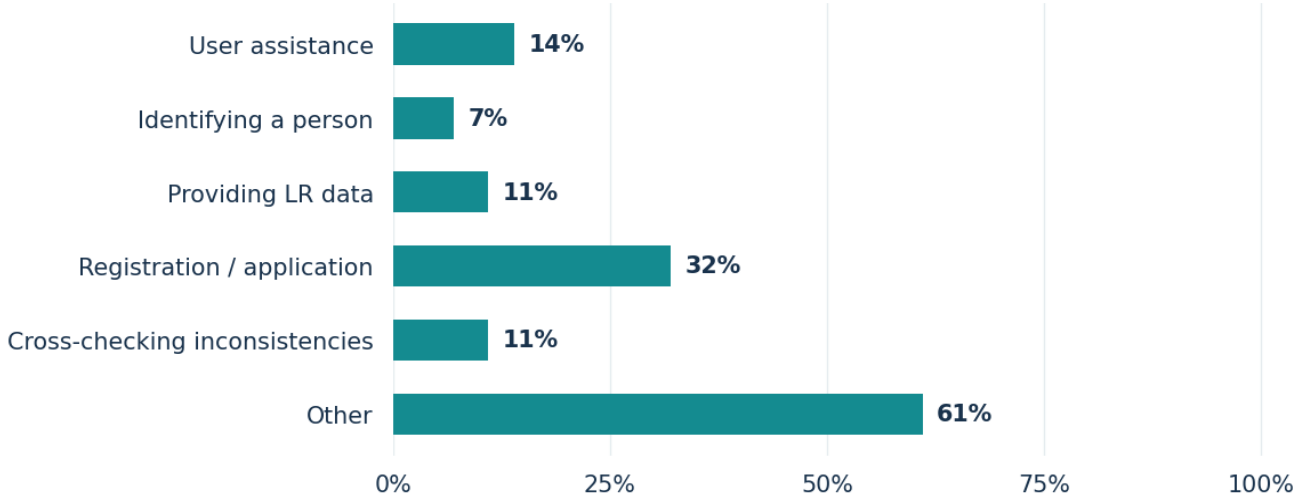

Do you use – or have you ever used – v.c.-tools in your (daily) work?

Applicable if YES (do use): Do you find the currently used v.c.-tools you use(d) in LR matters convenient and easy to use?

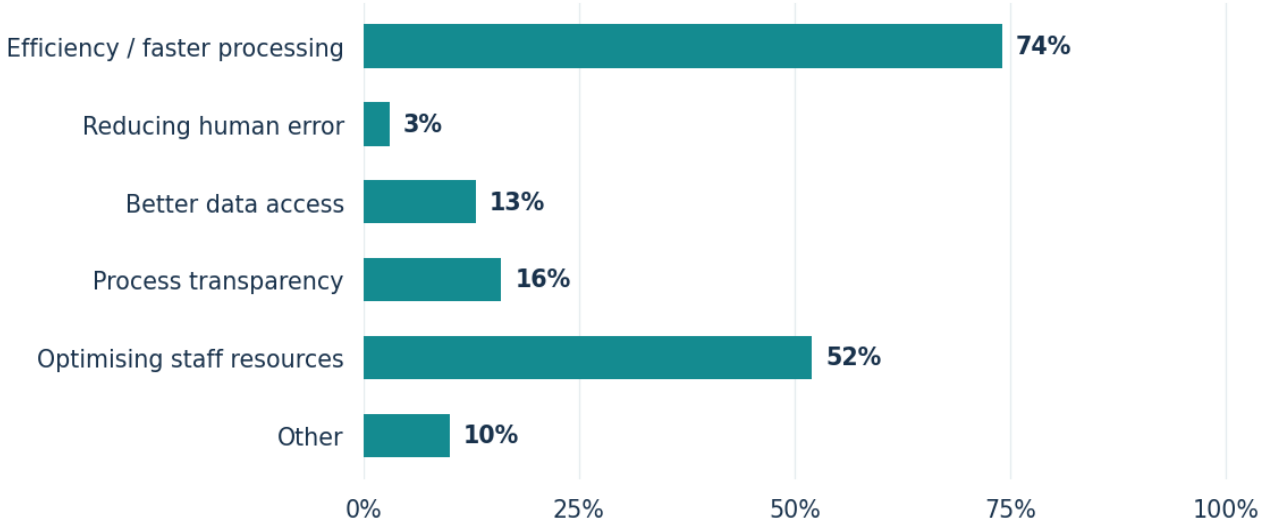

For what purposes do or did you use v.c.-tools? (Multiple answers possible)

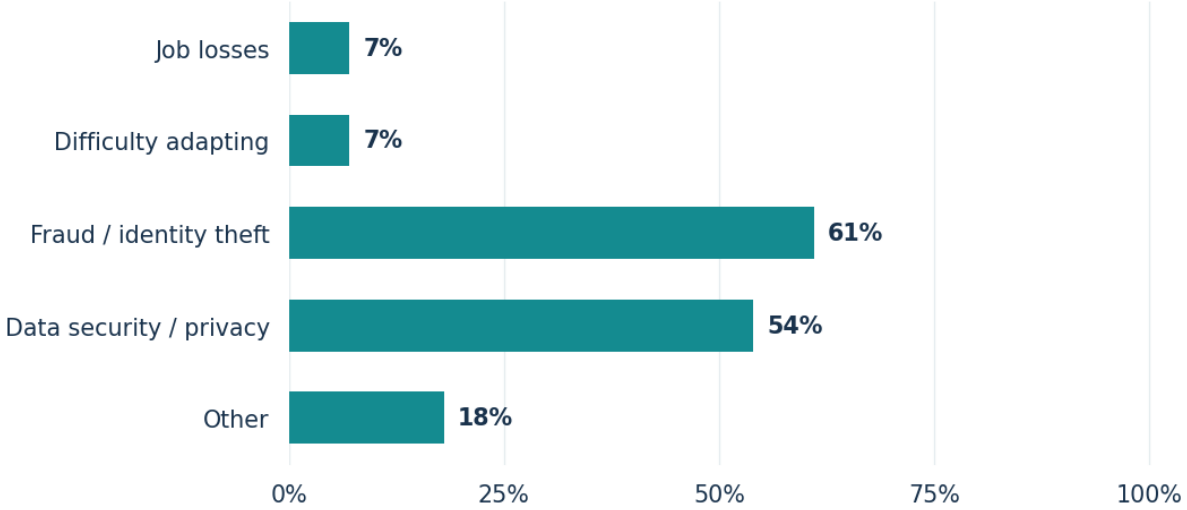

ELRN EUROPEAN LAND REGISTRY NETWORK

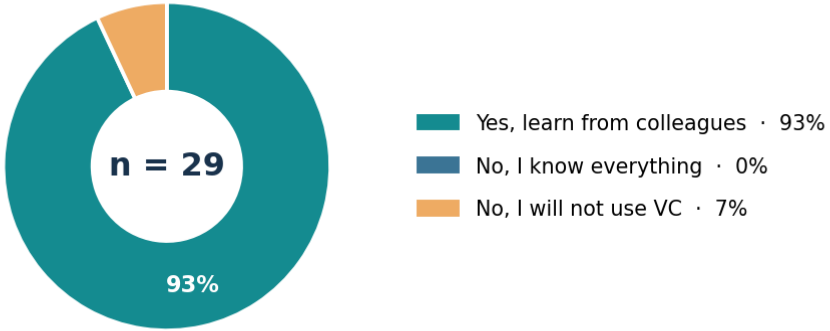

What do you think are/could be the main benefits of using videoconferencing tools? (Multiple answers possible)

What are your main concerns when using videoconferencing tools? (Multiple answers possible)

Would you like to explore best practices in v.c.-tools from your EU colleagues?
